Add teams to your event by selecting "Add Team from Leagues", find and import teams to add. Add golfers to a team by selecting "+ Add Golfers" to the right of a team. Customize a team name or abbreviation by selecting the team's current name or abbreviation. Player seeds are used to calculate team rankings, speed up the pairing process on the Rounds step and to determine the player scores considered in team stroke play events. Seeds can be modified on the People Golfers step. Golfers must be 1- n (where n is the number of players on a team) for each team. Click **here** to learn more about player seeding for team stroke play events and click **here** to watch the video tutorial for the Teams step.
